ABOUT ME

Motivated third-year IT student at the Egyptian E-Learning University (EELU), passionate about backend development with .NET and PHP. Self-driven learner with hands-on experience in building full-stack projects, responsive web apps, and desktop applications. Currently seeking internship opportunities to apply and grow my technical skills in a professional software development environment.

EDUCATION

The Egyptian E-Learning University (EELU) — IT

3rd Year | Expected Graduation 2028

2024 – 2028 (Expected)

Digital Egypt Pioneers Initiative (DEPI) — Full Stack .NET Developer Scholarship (Round 5, implemented by AST)

Intensive scholarship focused on advanced backend development using C# and ASP.NET Core.

2026 – Present (6 Months / 200+ Hours)

National Telecommunication Institute (NTI) — Full Stack PHP Trainee Scholarship (in cooperation with ITIDA)

Rigorous bootcamp focusing on OOP, database design, and MVC web architectures.

2026 – Present (1 Month / 120 Hours)

TECHNICAL SKILLS

Programming Languages & Technologies

C#	PHP (Learning)	Python	Java
C++ Basics	SQL		

Web Technologies

ASP.NET Core	Laravel (Learning)	React	JavaScript
HTML5 / CSS3			

Networking

Cisco Networking	Network Fundamentals	Cisco Packet Tracer	
------------------	----------------------	---------------------	--

Tools & Development Environment

Git	GitHub	Docker	VS Code
Linux			

CERTIFICATIONS

Cisco — CCNA: Introduction to Networks

14 hours of hands-on labs covering IP addressing, routing, Ethernet, and router/switch configuration.

2026

Smart Code / Arabic.Tech — Programming Fundamentals

66-lesson course covering CS fundamentals, OOP, SQL, APIs, Git, Docker, and Deployment.

2025

PROJECTS

Munjez — Productivity Desktop Application

munjez-website.vercel.app

Free offline-first desktop app for Windows & Linux — built with full UI/UX design

- Designed, built, and shipped a full-featured offline productivity desktop application solo.
- Implemented 6 core modules: Smart Task Management (folders, priorities, recurring tasks, voice notes), Calendar (4 views + Hijri support + drag & drop), Pomodoro Focus Timer, Habit Tracker with streaks, Stopwatch, and White Noise mixer.
- Built natively for Windows & Linux using React, TypeScript, Tauri, Rust, Vite, and Firebase.
- GitHub: github.com/Osama2214/munjez-releases

Personal Portfolio Website

osama-portfolio-six.vercel.app

- Designed and built a personal developer portfolio to showcase engineering projects, skills, and resume.
- Features custom particle canvas animations, mouse-glow coordinate tracking, responsive layout stability, and a modern dark theme.

CURRENTLY LEARNING

- Strengthening backend engineering concepts in ASP.NET Core, PHP/Laravel, and RESTful API design.
- Actively seeking backend or full-stack software development internship opportunities.

LANGUAGES

Arabic — Native

English — Intermediate (Technical Reading)

German — Beginner
